EDUCATION

B.tech in Computer science Chitkara University

08/2017 – Present

CGPA-8.84

Delhi Public School Chandigarh

2009 – 2017

PROJECTS AND COURSES

Stethoscope website (01/2019 – 04/2019)

- We made a website which constitutes information about all the doctors and giving details about the scheduled appointments. The profile listings and suggestions for specializations of nearby doctors for all the logging in patients and doctors.

DGconnect (smart city) (09/2019 – Present)

- We are building an app based on QR code which is user-friendly ensuring that the code on the vehicles can give the personal details like car insurance, pollution papers, car details etc. The aim is to reduce corruption, time wastage, rules improvisation in the city. This project is a blessing for the society and can be explained in person.

Medical Toolkit improvisation-EPIC (01/2018 – 04/2018)

- We improvised the medical toolkit for the people in rural areas where they were given a simplified version of the medications and their use which included diet chart for a healthy being. The prototype was liked by the people in nearby villages and was then implemented to a working model.

STN institute course for C++ (08/2018 – 10/2018)
